Dear GV Members,

We enjoyed seeing so many of you enjoying our programs last month! We had a record attendance of 84 people at the first program in our Bill Plante Conversations. Truly, our Village Square has become the hub for activities for our members and volunteers and we are thrilled to see you enjoying it!

This month we have some more fabulous programming for you to enjoy. We will have a private tour of the Kreeger Museum, a CCC program on the climate crisis, movie night, social hour, lunches, etc. We try to offer varied options in an effort to appeal to all our members. If you have an idea for a program or activity you would like us to offer, contact the office and let us know. Additionally, if you have a hobby or skill that you would like to share with other members, let us know that as well. In October, GV member Claire Bettag generously shared her knowledge to teach us how to create photo books as permanent souvenirs, and a way to preserve meaningful family moments.

We are also busy getting ready for our upcoming Anniversary Party, mark your calendars for December 6 at 6 pm. We will be celebrating our 12<sup>th</sup> Anniversary, and sending out the invitations by email this month. We hope you will join us to celebrate!

Also, in November, we are hosting an open house for Prospective members and volunteers. If you have friends who Would like to learn more about Georgetown Village, bring them to the GV Square on November 2 from 4 to 6 pm. In addition, we are hosting a Volunteer Appreciation event. If you would like to send a special thank you to our volunteers, let me know, and we will share it at the appreciation event on November 7.

Remember Georgetown Village closes for Thanksgiving Weekend on Nover 23 & November 24. We hope you enjoy The holiday as well!

All the best,  
Lynn

CCC Program ONLINE-5:30 pm  
Albert Cheh-Are We Meeting the Climate Crisis?  
Meeting ID 871 7165 0623 PW 939988**

Join us for this very interesting presentation by Albert Cheh, Professor Emeritus of Environmental Science and Chemistry, American University. We have all heard about climate change and the climate crisis. Professor Cheh will be looking at the evidence for human driven warming and climate change. He will also share what the adverse consequences might be going forward, and what we can do about it. In addition, we will look at how the US is doing dealing with this crisis in comparison with Europe, India and China.

This will be a very interesting talk about a particularly topical subject. As I write this the weather for the last weekend in October is scheduled to be in the upper 80s, while we might enjoy this, we do need to realize the implications.

**GV Member Portal-Do YOU Know How to Use It?  
Thursday, November 16-2 pm  
Meeting ID 867 4785 8401 PW 189004**

Entering Georgetown Village's Member Portal allows you to find contact information for your friends and sign up for programs online. Additionally, we have some resources in our member-only section that is accessible through the member portal. In addition, the membership portal also offers you the opportunity to start Affinity Groups, and find others in the Village who share your interests or hobbies.

Bethany will be presenting this overview of how to access the portal and answering all your questions about its usage.
